- 3.) Simplicity at its' finest
- 4.) Only 3 - Moving parts
- 5.) Dust sifting technology

Protect Your Family Today !

Fact vs. **Fiction**

Fact: Everyone WANTS to believe that their water is great.

Unfortunately, ground water problems are becoming a nightmare because we just don't know what is underground. Remember, water is the universal solvent. Water can dissolve much of what it comes in contact with.

Fiction: Your water problems "might just go away".

Fact: If you have a private well, YOU are the president of your own utility company.

If you are the President, who do you think is responsible for providing quality water to your home, business, or farm.

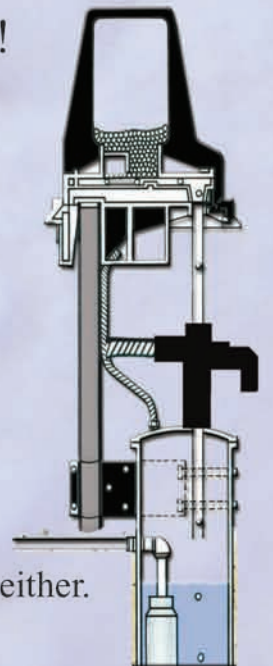

Fiction: Someone else will solve these problems for you.

Fact: Problem water situations such as iron, algae, rotten egg smell, and bacteria exist in the well - not in the home.

How have you treated these problems in your home? Our systems will solve and compliment your existing water conditioning equipment. Furthermore, is your well safe? When was the last time it was tested? Can you afford to wait until tomorrow?

Solutions to your NEEDS !

- ✓ **DESTROYING** hydrogen sulfide no more rotten egg/sulfur smell
- ✓ **RIDDING** nasty iron staining, black iron and manganese deposits in pipes and water fixtures.
- ✓ **ERADICATING** algae. The green slime in animal watering troughs is gone.
- ✓ **PROTECTING** pumps. The money spent rebuilding and replacing pumps goes into the bank
- ✓ **CONTROLLING** problem waters. Our systems are designed for multi-contamination needs.
- ✓ **BEATING** black iron bacteria. Our system limits and suppresses the growth of this nasty iron bacteria - one of the toughest iron problems.
- ✓ **CUTTING BACK** maintenance costs on agriculture watering systems.
- ✓ **REPLACING** the messy mixing of liquid chlorine and plugged injectors with chemical feed pump systems.
- ✓ **CLARIFYING** tastes and odors. NO smell in the well!

Your grandfather didn't know that a well can become a sick well. With our systems standing guard for your well, hopefully your grandson won't either.

Warranty

BWI Inc. BILL OF RIGHTS

WE THE PEOPLE of Better Water Industries, in order to truly provide you, our CUSTOMER, with the highest quality of water, both today and tomorrow, do provide you with this LIMITED WARRANTY
